Dear to all who can help, pg. 1

I am Julia Eickmeier. I am at Alton Mental Health Center in Alton Illinois. They have poisoned me in here several times and I am without food and water right now. They are abusing me by allowing me to go without food and water regularly which goes against my mental wellness, and this is a Mental Health Center. They are supposed to be providing a bill of mental health to the court for me and they are abusing me beyond a bill of mental health for a regular person to be deemed fit to stand trial. It may be of a surprise to you but at the time I am without food and water because they are poisoning me and so I have to reject the foods here in order to remain alive. They are poisoning me because of a Maritime Law case originating from Peru, Illinois. They have my child apparently with a rapist and when I went down to find evidence of this, they arrested me on a violation of an Order of protection entered against me about the Father of my child, who is Madeline H. Kramer of 01-20-13. She was born at the hospital in Peru Illinois and is a real person, not a corporation as they've painted her to be in our family Law Case 15-F-153 originating in Bureau County, Illinois then transferred to LaSalle County, Illinois due to how my lawyer said he'd have more help over there than in Bureau County due to how his friends are affiliated with cults and aware of Maritime Law due to the surplus of Catholic Churches in LaSalle County.

Catholicism breeds contempt where Maritime Law is concerned as they are commonly child abusers and use the Knights of Columbus to cover it up which doesn't make child abuse okay and only make certain people liable / responsible for the harm she experiences. They are her grandpa and father who are Catholic and belong to St. Joseph's Catholic synogague right by the City of Peru where her grandparents, Mary and Joseph Kramer work. They are an extremely cult worthy little town and have conspired against me every step of the way, by allowing people to have sex with her to increase their chances of winning in the court of law. A sexual prodigy was made of my child where she belonged to several authorities in Peru, Illinois as their sex slave according to a Private Detective in Chicago, Illinois. Sex cults in Illinois my child has apparantly got involved in, according to Ron Davino, Private Detective from Chicago Illinois. are corrupt in every sense of the word.

They've been abusing my daughter on cult standards according to the court case 15-F-153 of mine where she is listed as "Connor Lee Robbins" instead of her actual name to insinuate some type of Law Cult Standard / Loophole, or they have just been hiding their crimes belligerantly and making legal errors which have cost me and my daughter our lives almost. In my theory, I believe they had a problem with my Grandmother allegedly helping us in court, so they acted harshly and abused us even more along the lines of their cult

at after time spent with the fa
otect her from harm from him based on a
they claimed they needed prio to doing anyth
protect the child. She showed injury signs at
Doctors when they called in the report on Dad to
the Rew Police, who were already co[illegible]rupt and in on
Ottawa Illinois DCFS. I was told, when getting custody
of my daughte taken away and when DCFS was taking protective
custody of my child due to the Medical visit they told me
to have her go to the next time she showed signs that
the reason why she was getting taken was because I took
her to the Doctors, which they told me to do, and how
the investigation/report was flipped around to be made
about me when it originally arrived to their office a report
of abuse about Dad. She alleged I had munchausen by proxy
on October 05 2016 in the court of law where she testified
to have my child taken away and placed with the Dad so
sexual abuse could occur and without my ability to
protect the child from harm, even with murder threats
present which they made record of on their records in
reports on allegations of abuse from the Father. He allegedly
pushed her into a basement window well one time
and DCFS listed in their reports that he was abusing her
and there was evidence, probable cause that this abuse
occured, outweighing the evidence which showed the

There are abuse allegations dating
back when she was an infant and even before when I was
pregnant. I told the police he was abusive to me and they did
nothing to get her taken away from me and placed with him where he could
have hurt her severely as he threatened to murder me and I
believe the only reason this hasn't gone through is because I was
there being adamant about how she should be taken care of
properly. If it weren't for me, they probably would have sacrificed
her for some Satanic Cult or something, which I think the Father
is involved in because he has Satanic tendencies and hangs out
with Satanic people, all of who I believe our court case is based off of.

There are huge errors far beyond an acceptable limit and
our child has suffered tremendously large amounts of pain, hurt,
sorrow, remorse, grief, painful injuries, abuse and trauma.
She looked like hell several times after returning to me from
the Fathers where she expressed that he had hurt her. She
explained in detail several times how he aggressively beat her,
threw her to the ground, starved her, let her wet the bed,
neglected to potty train her, deliberately inflicted wounds to
her (etc.) She has sustained video and picture evidence of injury
which they came at me for taking pictures of even though
I was only trying to protect her from harm.

One DCFS representative expressed how I medically
abused her, by taking her to the hospital after they explained
how she needed to be taken there after abuse signs were

allegation of abuse did not occur on several occassions which means they probably should have done something to protect her instead of let harm happen on a regular basis. It appears they acted in effort to cover up their negligence by placing her with the Father where I could do nothing to address the concerns or make them look like a negligent agency. The Dad took custody of her through an OP improperly labled 15-F-153 by the wrong Judge who was alternative than the one hearing the custody case, which the OP was mislabled improperly. Judge Karen Eiten was her name and she committed legal corruption at its finest. She abused our child through her misproceedings and errors. She needs to have her license taken away from her as my child could be dead today because of her and she is a civil law Judge who should protect the wellness of a minor child, and she deliberately placed her in harms way. She needs to have abuse be kept away from children at all costs instead of allow them to be harmed in our county of LaSalle county, Illinois. They need to have safety through shelter care hearings that DCFS was to allow and opted for an order of protection hearing instead, bypassing the shelter care hearing to allow the Father to gain custody of her for abuse purposes, clearly as they indicated in several of their reports that he was guilty of. They are an abusive agency that allows children to be abused for the

purpose of Satan / Moloch and cult / beyonce worship rituals where they are allegedly raping children and selling child porn on the Dark Web, online. I made aware to my Attorney Eric Miskell that I did not want to have my child taken or be made a corporation and that I did not want to have any affiliation with the church of Satan and expressed my faith was Christian / non-denomination and not of any Satanic origin whatsoever. I was made to appear like a Satanic cult member due to how the court case was conducted and how I was listed as a party in the case by being listed as the Mother to Connor Lee Robbins, an alter ego for my daughter, Madeline Hope Kramer.
I did not attest to any of this and was alleged to be a Satanic Sacrifice behind the scenes by cult members, alongside my daughter due to how they used code according to their religion and I apparently signed my signature or something. There were graves dug already according to Chicago Illinois Detective and there were pictures of those on the Father's phone allegedly. There are huge abuse concerns where I'm concerned as I was severely abused in the LaSalle County Jail when I was picked up for violating my false order of protection that I apparently entered against myself by writing e-mails about the Father to people when I was not supposed to. They sprayed me with poisonous fumes when I was in there, trying to dispose

of my body instead of let me go forward with a normal trial. I was made to be the abusive party in case 15-F-53 instead of the Father, who was abusing the child and now they were trying to kill me instead of prosecute the Father for his crimes which shows how corrupt of a county LaSalle County really is. They are abusive to me and my child and I want out of this cult / worship type scenario. The Father had videos on his youtube where he insinuated smelling the blood of an innocent one after she was born which is indicative of his attempts / threats to murder us or some kind of code for cult worship. There were a few of his bandmates who were in a Satanic rock band back in the day who told him of how he should murder us both, to my face, when I met them, when I was pregnant. They are seriously crazy. I am not. Will you avoid taking their side on this and protect me and my daughters lives so we don't have to die, by prosecuting the Father at last for his crimes against my child, starting with the threats of murder first, so that way it's alot easier than dragging out a long court process while both our lives are risked in the process and without any legal resolve.

I need some peace safe to stay as of right now as I'm at Alton MHC, in Alton Illinois, a small town outside of St. Louis and on the Illinois / St. Louis boarder. There are huge abuse concerns here as they are poisoning me the same as they did in the LaSalle County Jail and are trying to kill me through the use of oral pill perscriptions which the LaSalle County Jail said they'd have poison put in when they had me sent back to the jail after being deemed fit to stand trial. They already perscribed me a liquage here of vitamin D - a completely useless substance just for the jailers as they've asked to have something to put cianide in and a permission to stab me with a needle of cianide also, if I declined to take the pill while I was at their jail awaiting trial for the false order of protection I had entered against me on my behalf. They are abusing me here for the sole purpose of Satanic worship and I want out of this cult because of this. I already mailed letters out here which are at the hands of these Alton MHC professionals and I dont know if they read them or not and formed biases against me more than they have already or if they have actually done anything to help me out of here. But I am still here and not eating anything due to them poisoning me and they are picking on me even more because of this - trying to perscribe me meds due to wanting to avoid

They are so used to giving people medication here that they are shocked about not being able to give me any and are taking their anger out on me by adding poisons to my food here so that I can't even eat and am barely even able to write letters sometimes. I may need to be transferred to a different mental Hospital if were unable to reduce my charge and resolve my court case as I can't eat anything here and can't be deemed mentally healthy until I'm able to eat properly. I heard McFarland has a snack program that offers safe foods to eat 3 times a day, according to some of the girls here who were transferred to here from there for some reason or another. I need a help yourself meal buffet style food option to eat safely and am not opposed to going to prison just to eat their safe foods there until this is done. I am unable to eat safely and am really bothered by this. Eating is really important to me. I need to remove the chance that I'll go back to the LaSalle County Jail for any reason at all such as mandating a case transfer any time a case opens up in LaSalle County to have it moved to a different county with a jail with a safe food program, just in case. I am unafraid to leave here but am if I go back to the LaSalle co. jail. I don't want to be abused anymore and want to live my life safely outside of here. Are you able to help me out of this situation and enable me to stay alive by and through here or a different agency?

In respect to the above listed information, please contact me at: Julia Eickmeier 4500 College Avenue Alton IL. 62002

or get me out of here by the power of whatever you deem necessary to make it work. Thanks. Im sorry for the abrasive nature a tone that this letter protrays.

Sincerely,
Julia Eickmeier
